

Independent Learning arrangements 2022-23

Where it is seen relevant and helpful to progress, understanding and learning, additional weekly tasks should be set as far as possible per the following timetable. Independent Learning tasks should be set using ClassCharts so that students and parents can access the tasks from home.

Curriculum Intent Organisers can also be used to support students to access a resource that can support self-assessment and deeper exploration of a subject in order to broaden their experience. Guidance to support setting of IL can be found below the following schedule.

Setting Independent Learning tasks

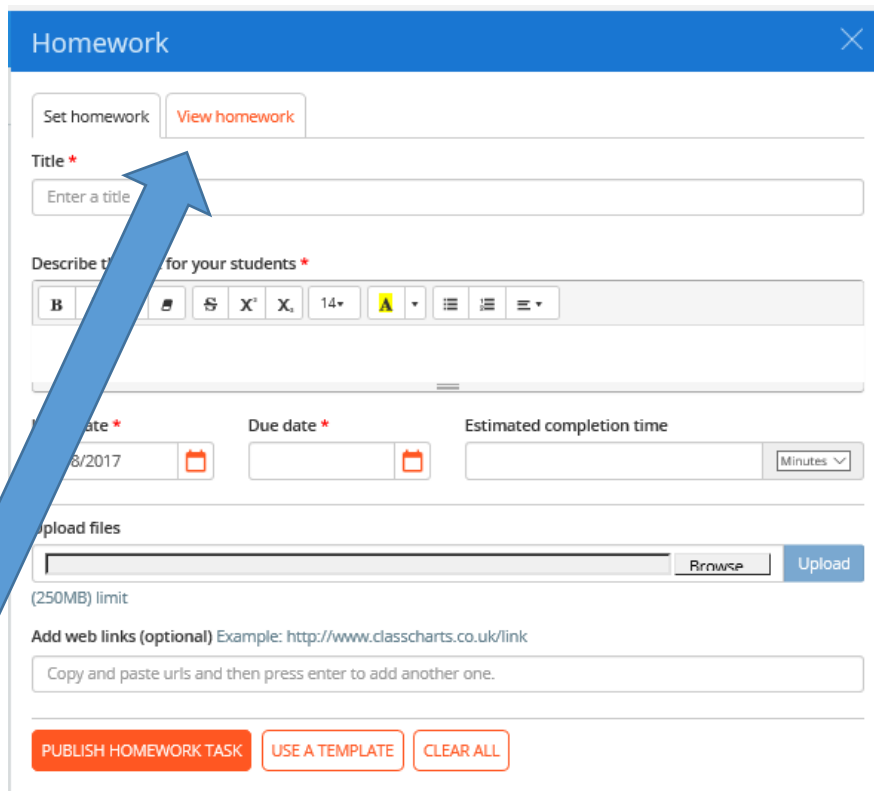

Teaching staff set independent learning tasks using ClassCharts. ClassCharts has been selected as it is a tool that is integral to classroom teaching and as an improvement to the previously arduous system as independent learning can be set and discussed with a class present.

Steps to follow:

1. Select a class and then select homework:

- Independent learning tasks can be given a title and described in more detail. The issue date and the due date can be selected, along with the estimated time that it will take a student to complete the task. It is also possible to upload files and weblinks to support students completing the task(s). Once the information has been entered, select 'publish homework task'. The task will then be published directly to the Independent Learning section of the school website and is published from that point onward.

A screenshot of the 'Homework' form in ClassCharts. The form has a blue header with the title 'Homework' and a close button. Below the header are two buttons: 'Set homework' and 'View homework'. The 'View homework' button is highlighted in red. The form contains several sections: 'Title *' with a text input field; 'Describe the task for your students *' with a rich text editor; 'Issue date *' with a date picker showing '8/2017'; 'Due date *' with a date picker; 'Estimated completion time' with a dropdown menu set to 'Minutes'; 'Upload files' with a file input field, a 'Browse' button, and an 'Upload' button; and 'Add web links (optional)' with a text input field and a note 'Example: http://www.classcharts.co.uk/link'. At the bottom, there are three buttons: 'PUBLISH HOMEWORK TASK' (highlighted in red), 'USE A TEMPLATE', and 'CLEAR ALL'.

- Using the 'view homework' tab will allow you to see previous tasks that have been set for this class.

The screenshot shows a lesson plan interface. At the top, there is a search bar labeled "Search by Lesson" and a "by Teacher" label. Below the search bar are "PREVIOUS" and "NEXT" buttons. The main area displays a grid of lesson boxes for Monday 26 Jun and Sunday 2 Jul. A popup window is open over the "8a/Ge1 - Geography - Mrs. V Twine" lesson box. The popup contains the following information:

- Issue date: 22/6/2017 | Due date: 28/6/2017
- Estimated completion time: null minutes
- 8a/Ge1 - Geography - Mrs. V Twine
- Global warming**
- finish factsheet started in lesson today**
- Try and complete the eco footprint calculator <http://footprint.wwf.org.uk/> based on your household. Write down your total score.

The background grid shows lesson boxes for various subjects and teachers, including English, Geography, History, Maths, and German.
