## 29.0 Health and Safety Inspections

- 29.1 It is essential that Health and Safety inspections are undertaken to support teams in their delivery of Health and Safety within schools.
- 29.2 Each primary school will receive two half day inspection per year covering various aspects of Health and Safety. *The WeST H&S Checklist will be used periodically by the HS&E Manager along with members of school management to ascertain compliance and progress in closing out actions from previous reviews and audits*

## 32.0 Lone Working

- 32.1 Lone working is defined as 'workers who are separated from their work colleagues'. Members of the public, visitors or students are not working colleagues
- 32.2 To manage risk associated with lone working, a risk assessment must be carried out and a safe system of work developed. Various control measures may have to be introduced into the safe system of work, such as
  - 32.2.1 No lone working in high risk activities, e.g. working at height.
  - 32.2.2 Arrangement for remote supervision and good communication including emergency contact

- numbers
- 32.2.3 No lone meetings with parents in certain circumstances for example, where there is concern about the parent's conduct the meeting will need to be conducted with two staff present.
- 32.2.4 Use of alarm systems.

This is not an exhaustive list; specific tasks will need careful consideration of the management of the associated risk.

### 33.0 Maintenance of Plant and Equipment

- 33.1 Regular inspection and testing of school equipment is conducted to legislative requirements by competent contractors. Records of such monitoring will be kept by the Facilities Manager. All staff are required to report any problems found with plant/equipment to the responsible manager. Defective equipment will be clearly marked and taken out of service by storing in a secure location pending repair / disposal.
- 33.2 The following specific statutory inspections and tests will be undertaken:

Where such plant and equipment present significant hazards, risk assessments will be undertaken and any training needs and personal protective equipment requirements are provided.

### 34.0 Medication Arrangements

- 34.1 Students will be encouraged to self-administer medications wherever this is appropriate. Nevertheless, the school will, at the request of the parent/carer and with the consent of the Principal/Headteacher, administer medication prescribed by a doctor.
- 34.2 In circumstances when a student suffers headaches, menstrual pains or toothache, staff may be asked to provide a mild analgesic to relieve pain. Only analgesics containing paracetamol will be given to children under the age of 16 when parents have given prior written permission. On no account will aspirin, or preparations containing aspirin, or medicines containing ibuprofen, be given to students unless prescribed by a doctor.
- 34.3 No member of staff will administer any medication unless a request form has been completed by the parent / carer.
- 34.4 The authorised person in each school is responsible for accepting medication and checking all relevant information has been provided by parents / carers prior to administering. All administration undertaken by staff will be recorded. Records of administration will be kept by the SENCO department liaising coordinating with the authorised person. Where required, training will be undertaken by staff to administer specific medications.
- 34.5 All non-emergency medication kept in school is securely stored in a lockable cabinet fixed to the wall in the medical room with access strictly controlled. Where students need to have immediate access to emergency medication i.e. asthma inhalers, epi-pen etc., it will be kept in the medical room securely stored and clearly labelled.

### 35.0 Monitoring

- 35.1 The Estates Director assisted by the Health and Safety Manager will put in place procedures to monitor Estates compliance with the arrangements described in this policy. The central component of this process is the 3 yearly Health and Safety Review process. Feedback from this process is to be referred to the Trust Board.
- 35.2 A general inspection of the site will be conducted annually and be undertaken by the Health and Safety Manager. Inspections of individual departments will be carried out by Heads of Department or nominated staff.
- 35.3 In both cases the person(s) undertaking inspection will complete a report in writing and submit this to the Estates Director and the Trust Board. Responsibility for following up items detailed in the safety inspection report will rest with the Health and Safety Manager to liaise with the relevant managers.
- 35.4 Other processes employed to monitor compliance with this policy and health and safety performance in general include:
- 35.4.1 Training audits, review of policies, updates from central government

### **36.0 Moving and Handling**

- 36.1 Generic risk assessments for regular manual handling operations are undertaken as described in the risk assessment section. Staff engaged in these activities will be provided with information on safe moving and handling techniques and will receive specific training where the need is identified in the risk assessment.
- 36.2 All manual handling activities which present a significant hazard, which are not accounted for in the generic risk assessments described above, will be reported to the Health and Safety Manager. Where such activities cannot be avoided, a specific risk assessment will be conducted to ensure such risks are adequately controlled. A copy of this assessment will be provided to
- employees who must follow the instructions given when carrying out the task. Staff should ensure that they do not lift heavy items unless they have received a briefing on the control measures in place.
- 36.3 All moving and handling of students will be risk assessed by the SENCO and recorded in a specific Handling Plan for the individual concerned. All staff who move and handle students will receive appropriate training both in the controls listed in the Handling Plan and specific training on any lifting equipment that they may be required to use. Equipment for moving and handling people is subject to inspection on a 6 monthly basis.

### **37.0 Noise at Work**

- 37.1 The Trust will comply with the Control of Noise at Work Reg 2005. This does not include music or entertainment.
- 37.2 Where possible noise should be managed in order to not only to protect the user but also people in the vicinity. Where required hearing protection must be provided for areas where noise is greater than 85 decibels on an average of daily or weekly periods of time.

### **38.0 Offsite Visits**

- 38.1 The Trust has a separate policy for Outdoor Education, Visits and Off-site Activities Health and Safety Policy. Please see this policy for further clarification (Evolve).

### **39.0 Personal Protective Equipment (PPE)**

- 39.1 The Trust has a legal responsibility to provide the correct Personal Protective Equipment (PPE) for each task undertaken should PPE be required which is determined by risk assessment. PPE is equipment that will protect the user against health or safety risks at work. It can include items such as safety helmets, gloves, eye protection, high-visibility clothing, safety footwear and safety harnesses. It also includes respiratory protective

equipment (RPE). In Health and Safety risk management hierarchy, PPE is the last protection against risk, with elimination of risk, replace the risk, isolate people from the risk, safe systems of work to be considered in the first instance.

#### 40.0 Personal Safety and Security

- 40.1 The Trust believes that staff should not be expected to put themselves in danger and will not tolerate violent/threatening behaviour to its staff. A separate specific behaviour policy is in place regarding staff conduct.
- 40.2 Staff will report any such incidents in accordance with agreed accident/incident reporting procedures for the school.
- 40.3 Working alone will be avoided wherever possible. Work carried out unaccompanied or without immediate access to assistance will be risk assessed by the relevant line manager in order to identify and implement control measures. Work involving potentially significant risks (for example work at height) will not be undertaken whilst working alone. In order to ensure that this is the case, staff working outside normal school hours must obtain permission of Principal/Headteacher and/or the Trust's CEO.
- 40.4 The requirement to undertake a lone working risk assessment will also extend to working alone off site where staff conducts home visits (See lone working)
  - 40.4.1 School staff responding to call outs
    - 40.4.1.1 Nominated key holders attending empty premises where there has been alarm activation should do so with a colleague where possible. They should not enter the premises unless they are sure it is safe to do so. If alone, the person should leave details with a colleague and report to them when leaving the site.
    - 40.4.1.2 Risk assessments will be reviewed annually or after significant change and recorded by amending the risk assessment document.
  - 40.4.2 Trust Security
    - 40.4.2.1 The Health and Safety Manager is responsible for undertaking a risk assessment for site security in order to identify and implement control measures in this area.
    - 40.4.2.2 This will be reviewed annually or after significant change and recorded by amending the relevant risk assessment document.

#### 41.0 Radon Gas

- 41.1 Some schools within the Trust are located in a radon affected area as defined by Public Health England (PHE). Consequently, radon gas levels will be measured on a 10 year cycle and detectors returned to PHE for analysis.
- 41.2 If levels are below the 400 Bq/m<sup>3</sup> threshold, this process of measurement will continue. If readings exceed the 400 Bq/m<sup>3</sup> threshold a Radiation Protection Adviser (RPA) will be engaged and a risk assessment of staff exposure will be undertaken in consultation with the RPA. Based upon the findings of this assessment, suitable mitigation systems will be identified and installed to reduce the radon level to well below 400 Bq/m<sup>3</sup>. These systems will be maintained.

#### 42.0 Radioactive Sources (where relevant)

- 42.1 The Trust has adopted the CLEAPSS guidance L93 '*Managing Ionising Radiations and Radioactive Substances in Schools and Colleges*' as its policy arrangements for the use of radioactive sources. The separate Standard Operating Procedures outline the precise procedures to be followed.
- 42.2 CLEAPSS provide the Radiation Protection Adviser (RPA). The name and contact details are contained within the Standard Operating Procedures document

#### 43.0 Stress/Wellbeing

- 43.1 The Trust is committed to promoting high levels of health and wellbeing and recognises the importance of identifying and reducing workplace stressors through risk assessment in line with the HSE's management standards.
- 43.2 The Trust ensures to have suitable occupational health support in place and specific arrangements for responding to individual concerns and monitoring staff workloads e.g. return to work procedures following absence. This is monitored by the Director of Human Resources
- 43.3 Where appropriate, risk assessment findings will be recorded on the relevant document.

#### 44.0 Tree Safety Management

- 44.1 An increasing number of tree species are becoming susceptible to disease which can not only cause the trees to die but can also leave them in a dangerous state. For example, Ash dieback, is one of the currently emerging diseases likely to cause significant issues in the coming years. Physical damage to the tree can also cause safety issues and fungus can be a sign of underlying health issues with the tree.
- 44.2 The Trust will ensure that formal tree inspections are undertaken for trees which present a significant risk because of their age, condition or proximity to pedestrian routes, busy areas or adjacent properties. The school will also arrange for an inspection following severe weather conditions.
- 44.3 The Trust will arrange for regular independent expert surveys by a trained arboriculturalist to be carried out every 2 years and formally documented. *This will increase to yearly where ASH Dieback has been discovered.*
- 44.4 The Trust will also arrange for a local tree inspection at least every 1 year by an employee, or other, who is competent by training, including refresher training at five yearly intervals. The type of training is decided locally. Ad hoc inspections are carried out on a risk assessment basis such as after severe storms.

#### 45.0 Vehicle Movement around Site.

- 45.1 The Trust is aware it is almost impossible to separate staff and children from moving vehicles. Where possible, segregation is the best result, however where this is not always possible a risk assessment must be undertaken and distributed to all staff. Young children must be attended; older children need to be made aware of the risk. Control measures can be, clear road markings and signage, education, safe passage areas for both vehicles and people

#### 46.0 Work at Height

- 46.1 Work at height will be avoided wherever possible. Work carried out at height where a significant injury could result will be risk assessed by the relevant line manager in order to identify and implement control measures. Staff who work at height will be briefed in risk
- 46.2 Assessment findings. When working at height (including accessing storage or putting up displays) appropriate step ladders or kick stools are to be used. Staff *must not* climb onto chairs etc.
- 46.2 Formal training on work at height will be undertaken where the need is identified in the work at height risk assessment. Such training will also be undertaken by those who line manage staff who work at height. The Trust's nominated person(s) responsible for work at height is the Health and Safety Manager.
- 46.3 The nominated person(s) shall ensure:
  - 46.3.1 All work at height is risk assessed and properly planned and organised
  - 46.3.2 All those involved in work at height are trained and competent to do so
  - 46.3.3 The use of access equipment is restricted to authorised users
  - 46.3.4 A register of access equipment is maintained and all equipment is regularly inspected and maintained
  - 46.3.4 Access to fragile surfaces is properly controlled by clear warning signs

#### **47.0 Work Experience**

- 47.1 Each school in the Trust will have a nominated person responsible for work experience placement.
- 47.2 All placements are subject to pre-placement checks by the Local Education Business Partnership who will assess the suitability of the placement and maintain a list of suitable host employers. No work experience placement will go ahead if deemed unsuitable.
  - 47.2.1 If significant hazards exist within the work tasks of any work placement, these will be risk assessed by the host employer and findings will be communicated to the student and their parents/guardians
  - 47.2.2 All students are briefed before taking part in work experience on supervision arrangements and health and safety responsibilities
  - 47.2.3 Arrangements will be in place to visit/monitor students during the placement
  - 47.2.4 Emergency contact arrangements are in place (including out of school hours provision) in order that a member of school staff can be contacted should an incident occur
  - 47.2.5 All incidents involving students on work placement activities will be reported by the employer to the Trust at the earliest possible opportunity
- 47.3 If a school *hosts* a work experience placement, any significant hazards within the planned work tasks will be risk assessed by the host employer and findings will be communicated to the student and their parents/guardians. This assessment will be recorded on the relevant risk assessment document.

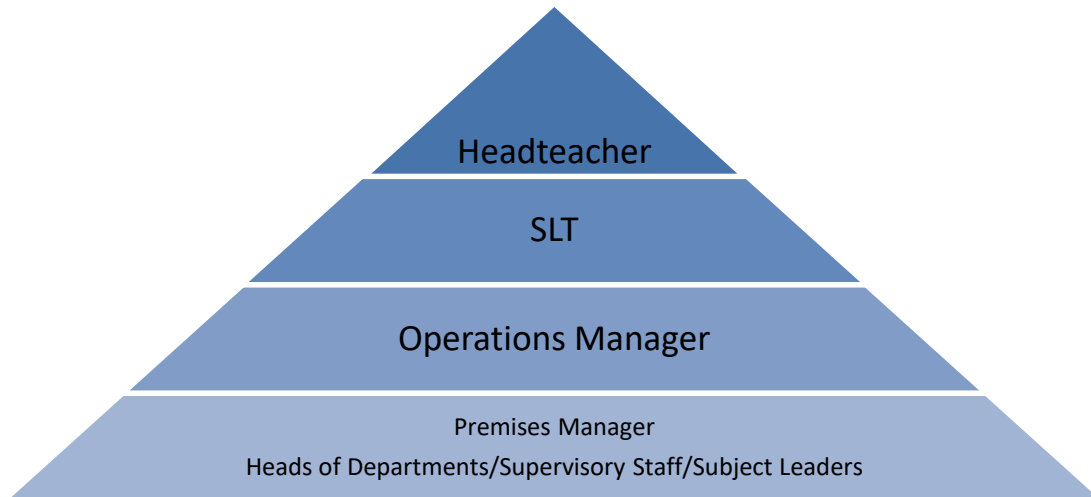

#### **48.0 Workplace safety**

- 48.1 The Health and Safety Manager is responsible for undertaking a risk assessment for general sites and buildings safety in order to identify and implement control measures for the following site workplace hazards:
  - 48.1.1 Slips, trips and falls
  - 48.1.2 Glazing
  - 48.1.3 Trees
  - 48.1.4 Waste storage and disposal
  - 48.1.5 Vehicle/pedestrian conflict
