

# Remote Curriculum

## Year 7 Science

### How it Works:

1. Find the correct week commencing row.
2. Find today's day.
3. Choose a lesson – hold ctrl and click the chosen link.
  - a. If you don't recognise the work, it appears too difficult or the link does not load:
    - i. Try another task – look at the previous/ next lesson or look at other days to find something familiar – you won't run out of work.
4. Some lessons have links to PowerPoints and other resources beneath the video and/ or a Starter Quiz
5. Complete any starter quizzes
  - a. Write your answer down
  - b. Mark your answers and write down any corrections
6. Watch the videos and take notes.
7. Pause if/ when instructed to do so to answer questions or respond.
8. Complete and go onto the next task
